RAPALLO AEP

EN The **Astoria Rapallo AEP** is a two group professional semi-automatic machine with a modern “heart” within a “good old time” body.

As a matter of fact it is the replica of our first standard production espresso machine built in 1968.

If you are looking for that touch of nostalgia in a money making tool the Rapallo is the answer. This version continuously brews coffee by a push button which controls the group and determines the coffee dosage.

RAPALLO AL

EN The **Astoria Rapallo AL** is a two group professional lever operated espresso machine.

If you are looking for a traditional way of brewing the best of espresso the Rapallo has the look and the power to do it right. This version brews coffee by releasing the spring activated lever-piston. Each pull delivers a 1 oz. size espresso coffee.
